## WORK EXPERIENCE

---

### BREDA UNIVERSITY OF APPLIED SCIENCES – BREDA, NETHERLANDS

#### **AI CHATBOT DEVELOPER - STUDENT ASSISTANT** – 04/2025 – CURRENT

Commissioned by the university administration, I led the development of an AI-powered chatbot designed to enhance prospective student engagement and streamline the admissions process.

##### Key Responsibilities

- End-to-End Product Development: Designed, built, and deployed a conversational AI assistant to support students in program discovery, application tracking, and admissions FAQs.
- Dynamic Data Integration: Implemented web scraping and API-based data pipelines to ensure real-time accuracy of chatbot responses based on official university data.
- User Experience Design: Engineered inclusive and adaptive conversation flows tailored to various student profiles, including international applicants and those with diverse academic paths.
- Stakeholder Collaboration: Conducted requirement-gathering sessions with academic and administrative staff to identify pain points and translate them into technical features.

### ALBERT HEIJN – HOEVEN, NETHERLANDS

#### **STORE REPLENISHMENT ASSISTANT** – 10/2024 – CURRENT

- Implemented and maintained store planograms, ensuring optimal product placement and visual merchandising in line with company standards.
- Organized and updated shelf layouts based on detailed documentation to enhance customer experience and drive sales.
- Managed and linked electronic shelf labels (ESLs) to products, ensuring accurate and up-to-date pricing and product information.
- Collaborated with store teams to maintain clean, organized, and well-stocked shelves, contributing to an efficient retail environment.
- Utilized problem-solving skills to address discrepancies in product placements or labeling swiftly.

### INTROL – KATOWICE, POLAND

#### **AUTOMATION TECHNICIAN** – 07/2024 – 08/2024

- Assisted in the installation and setup of production line automation systems, ensuring all components were properly integrated.
- Supported senior technicians in troubleshooting and maintaining automated equipment to minimize downtime.
- Gained hands-on experience in wiring, calibrating, and programming sensors and controllers.
- Followed safety protocols and industry standards to ensure safe and efficient operation of automated systems.
- Collaborated with team members to optimize production processes and improve system performance.
